## **GSINET INTERNET SERVICE ACCEPTABLE USE POLICY**

GSInet's Internet Service Acceptable Use Policy is intended to help enhance the use of the Internet by preventing unacceptable use. All users of GSInet's Internet Services must comply with this Policy. By using the GSInet Internet Service, you confirm your acceptance of, and agree to be bound by, this Policy.

GSInet supports the free flow of information and ideas over the Internet and does not actively monitor use of Internet services under normal circumstances.

GSInet does not exercise editorial control over the content of any Web site, electronic mail transmission, newsgroup or any other material created or accessed through GSInet Internet services. GSInet does not endorse or stand behind the accuracy, truthfulness, or reliability of any information (including statements of opinion or advice) provided on or by means of GSInet Internet service.

GSInet does not accept responsibility for the content of the materials or information published by others nor the violation of any laws resulting from such publication. GSInet may, at its sole discretion, remove any materials that may be illegal or may subject GSInet to liability or which may violate this Policy.

## VIOLATIONS OF ACCEPTABLE USE POLICY

You are responsible for your communications via, and your use of, the GSInet Internet Service. The following constitute Violations of the GSInet Internet Service Acceptable Use Policy:

Illegal Use: Use of GSInet Internet Service to publish, post, distribute or disseminate defamatory, infringing, obscene or other unlawful material or information via GSInet Internet Service, or violate any applicable local, state, national or international law either intentionally or unintentionally.

Harassment: Use of GSInet Internet Service to threaten, harass, stalk, abuse or otherwise violate the legal rights (including rights of privacy and publicity) of others.

Unauthorized Access: Intercepting or attempting to intercept E-mail, attempt to access the accounts of others, or attempt to penetrate the security measures of GSInet Internet Service whether or not the intrusion resulted in corruption or loss of data. This includes, but is not limited to, intentionally seeking information on, obtaining copies of, or modifying files, e-mail or other data, or passwords belonging to other users without permission.

Forgery: Internet e-mail sent, or caused to be sent, to or through GSInet Internet Service's network that makes use of or contains invalid or forged headers, invalid or non-existent domain names or other means of deceptive addressing is prohibited. Similarly, e-mail that is relayed through a third party's mail server without the permission of that third party, or which employs similar technologies to hide or obscure the source of the e-mail is unauthorized.

Copyright or Trademark Infringement: Uploading, e-mailing or posting of files that contain software or other material protected by intellectual property laws, rights of privacy or publicity, copyright, trademark, patent, trade secret or any other applicable law unless you own or control the rights thereto or have received all necessary consents.

Fraudulent Activity: Use of GSInet Internet Services to make fraudulent offers to sell or buy products, items, or services or to advance any type of financial scam such as "pyramid schemes", "Ponzi schemes" or "chain letters" is expressly prohibited.

Security and Resource Infringements: Use of GSInet Internet Service in a manner that adversely affects the availability of its resources to other users including unauthorized security probing activities or other attempts to evaluate the security integrity of a network or host system without permission, including but not limited to port scanning, network attacks, and the transmission of viruses or virus hoaxes.

Unsolicited / Bulk E-mail: Sending E-mail to users for any purpose other than personal communication, including but not limited to, transmit unsolicited commercial or bulk e-mail, advertise or offer to sell goods or services to other users.

## REPORTING OF VIOLATIONS

GSInet requests that anyone who believes that there is a violation of this Acceptable Use Policy direct the information to abuse@gsinet.net.

In order to pursue a violation report, the following information is necessary:

- 1. The IP Address used to commit the alleged violation
- 2. The date and time of the alleged violation in Greenwich Mean Time
- 3. Evidence of the alleged violation

E-mail with full header information provides all of the above, as do syslog files. Other situations will require different methods of providing the information above.

GSInet may take one or more of the following actions in response to a violation report: Issue a written warning; suspend the offending user's account, terminate the offending user's account, bring legal action against offending subscriber, or report the violation to governmental authorities.

Effective: January 29, 2009
